FLYING TO THE 7 GATES

Gate 1: Hawk Moth (Spectacle Garden)

The Adventure: Ivy points up to a big, soft light that looks like a beautiful full moon. Down in the flowers, Bert shows you tiny lights that gently blink like the wings of a friendly moth.

What it feels like: Safe, calm and cozy under the moonglow.

Gate 2: Powerful Owl (Weeping Fig Trees)

The Adventure: Look up! Bert shows you colourful lights shining softly into the giant branches of the Weeping Fig trees. These lights show the secret paths where the big, quiet owls fly.

What it feels like: Like standing under a giant, glowing umbrella.

Gate 3: Firefly (Bombax Lawn)

The Adventure: Ivy whispers to look at the grass. Tiny, twinkling lights are sparkling on the lawn, looking just like little fireflies playing a quiet game of hide-and-seek.

What it feels like: A big, open space with gentle, friendly sparkles.

Gate 4: Sugar Glider (Fern Gully Bridge)

The Adventure: Hold hands with Ivy and Bert as you walk across the bridge. Above your head, smooth, curved arches of light make a beautiful glowing roof.

What it feels like: Safe and steady as you glide across the water.

Gate 5: Grey-Headed Flying Fox (Rainforest Spiral)

The Adventure: Something is softly moving in the trees! Bert points to a river of bright light that slowly flows upwards, pointing the way to the starry sky.

What it feels like: Calmly watching magic lights drift up into the night.

Gate 6: Tawny Frogmouth (Rainforest)

The Adventure: Ivy leads you into a very quiet, peaceful part of the rainforest. The tree bark is covered in soft, playful patterns that blend into nature, just like a sleeping bird.

What it feels like: A quiet, restful rest-stop surrounded by trees.

Gate 7: Duskhawker Dragonfly (Beebo Bridge & Boardwalk)

The Adventure: To finish our journey, Bert points down at the water. The lights look like shiny rainbow dragonfly wings dancing softly on top of the ripples.

What it feels like: A happy, relaxing end to our beautiful night walk.
